Do The Math- NOT!

Aaron, Cooper, Peter and I are members of a small Church in Heron, Montana, population 149- Salute! We have approximately 30 members and about 55 attend each Sunday. PT is one of 200 members of a Church in Kalispell, Montana, population 14,223.

So who, looking at community percentages, has the larger Church? Who's "reaching more of their people?"

When I asked the "officials" of both of these Churches, to verify my amounts; neither of them were absolutely sure- they gave me estimates. I'm sure they only knew because they have prepared cups of punch and cookies enough for all souls present. They are awesome Lord-loving places, both of them. ...So where ya goin with this, Glenda?

Numbers, numbers, who needs em? Does God need A LOT of people to do His work? Did He regularly use massive hordes in the Bible? We humans get so caught up in amounts! We just have to keep having more, getting bigger, or drawing a crowd... oh pooh. The longer I'm saved, the more I see how God loves to come to solutions using the least desirable method. Sure, there are mathematical principles that can not be broken. And there are Scriptural formulas and God given laws that must be obeyed to calculate the right answers. But when it comes to making a difference in someone's life for our Lord, God sure delights in

someone's life for our Lord, God sure delights in improbabilities! A.K.A., miracles. You know, the kind of figures and products that don't add up, equal, or make any sense AT ALL in our eyes. I sure want to counted among the "remain-ders".

ISAIAH 55:8

For my thoughts are not your thoughts, neither are your ways my ways, saith the LORD.

EZEKIAL 18:25

Yet ye say, The way of the LORD is not equal. Hear now, O house of Israel; Is not my way equal? are not your ways unequal?
